## PORTFOLIO

- [vaisalreksi.github.io](https://vaisalreksi.github.io)

## SKILLS

Windows, Ubuntu, Centos, MacOS  
MySQL, TitanDB, MongoDB,  
Firebase, Redis  
Java, NodeJs, PHP, Go  
Laravel, Codeigniter, VueJS,  
NuxtJS, React Native  
AWS, Cloudflare, Git

## EDUCATIONS

September 2015 - December 2019

**STMIK DHARMA NEGARA**

Computer and Information System

## PROFESSIONAL SUMMARY

Experienced software developer prepared for this role. Skilled in programming languages, software design, and debugging. Strong focus on team collaboration and achieving results. Reliable, adaptable, and solution-focused.

## WORK HISTORY

January 2020 - February 2025

**Software Engineer**, PT. Emas Digital, Jakarta (Remote)

- Developed scalable and maintainable code, ensuring long-term stability of the software.
- Integrated new technologies into existing systems, increasing capabilities and improving overall performance.
- Consistently met project deadlines by effectively managing time and prioritizing tasks according to importance.
- Developed reusable components that significantly reduced development effort on multiple projects.
- Integrated third-party APIs to extend application functionalities and improve user experiences, leveraging external services for enhanced capabilities.
- Implemented effective debugging strategies, resulting in fewer software defects and increased reliability.
- Designed and implemented scalable applications for data extraction and analysis.
- Used React, MySQL, PHP and Go to develop app
- Implemented continuous integration/continuous deployment (CI/CD) pipelines, reducing manual errors and deployment times.

June 2017 - December 2019

**Full Stack Web Developer**, PT. Agape Software Internasional, Jakarta

- Used Javascript, SQL, PHP and HTML to develop app-solutions.
- Increased website performance by optimizing front-end and back-end code for faster loading times.
- Created easy-to-use APIs for third-party integrations, enhancing the functionality of existing applications without compromising on performance or security.
- Developed efficient and maintainable software according to business objectives and needs of clients.
- Provided technical mentorship to junior developers, fostering a collaborative learning environment within the team that encouraged professional growth for all members involved.
- Worked with back-end developers to design APIs.
- Developed functional databases, applications and servers to support websites on back-end.

June 2015 - April 2017

**Programmer**, PT. Ebdesk Teknologi, Jakarta

- Analyzed existing codebase, recommending improvements based on industry best practices.
- Developed custom software solutions for clients, tailored to their specific business needs and operational challenges.
- Developed in-house applications designed for company needs.
- Collaborated with other developers to refine software design and implementation.  
Created web-based dashboards and reporting tools for data visualization.
